CAT 6 UTP RJ-45 Patch Panel

Benefits & Features

- Outstanding material properties and patch panel design.
- Packaging including all necessary accessories for installation (labels, colorful icons, organizers, cable ties, screw-nut)
- It allows cable terminations and patch panel labeling to be performed easily and regularly in a short time.
- It contains information that explains in detail and clearly how the installation should be performed; minimizing installation errors it helps to download it.
- The organizer for the back side of the patch panel provides simple and easy termination and cable arrangement.
- High quality metal frame. Robust and easy to install design
- It is possible to use UTP and Shielded keystone jacks on patch panels.
- Compatible with 24 AWG solid conductors
- It complies with T568A, T568B Standards.

Physical Properties	
Wire size range	24 AWG, Solid or stranded Cables
Material of construction	Galvanized Steel
Standard Color	Black
Connector module holder	High impact, Flame-retardant plastic compound, UL 94 V-0
Housing material	High impact, Flame-retardant plastic compound, UL 94 V-0
Storage temperature range	-20 to +80C
Temperature operating range	-40 to +60C
Packaging	1 piece/box
