WiFi 6 Air Expert Test Set

VeEX's WiFi Air Expert® provides the tools for reliable, repea-
table install procedures that go beyond RF layer analysis. It
provides complete performance testing that measures end
user's experience under traffic load.

The WX150 test set is a compact and lightweight addition to
the WiFi Air Expert family. It provides all the tools necessary
for WiFi networks discovery, survey, optimization, perfor-
mance testing and troubleshooting in a compact form factor.

PLATFORM HIGHLIGHTS

- Supports detection and connection to 802.11a/b/g/n/ac/ax devices
- Discovers networks and lists Access Points, Clients and Channels in table and graphical format
- AP detailed capabilities discovery including SSID, BSSID, channels, security, supported data rates, signal and noi-
  se levels, co-channel and adjacent APs and associated clients
- Survey coverage problems with signal and noise levels tracking
- Analyze Channel usage by utilization and number of APs
- Discover associated and non-associated WiFi Clients present in the network
- One button Auto-Test evaluates the health of the WiFi network with analysis of security coverage, interference,
  top talkers and connectivity with configurable AP list
- Connectivity testing with DHCP connection to APs, Ping, Trace Route and ARPWiz
- Verify network performance with dual ended V-Perf Upload/ Download throughput testing
- Ethernet 10/100/1000-T and 1000-X ports to verify end-to-end throughput performance
- 8 hours of continuous operation on a full charge
- Standby and instant wake-up operation
- Ethernet connectivity and PoE testing
- Optional dual band 2.4 GHz and 5 GHz spectrum analyzer to easily discover and identify WiFi and non-WiFi
  interference
